

# Weighing Bottles

Ideal for the precise weighing of substances, Wilmad-LabGlass weighing bottles are constructed from light weight ASTM Type 1, Class A Borosilicate glass that allows for accurate tare settings. They can be used for hygroscopic samples when packaged in an atmosphere of nitrogen, and for storage in a desiccator to maintain dryness.

## Tall Form with Stopper

- Tall form shape decreases bottle footprint
- Standard taper penny head stopper with closed bottom forms a secure seal

## Tall Form with Flat Top Cap

- Caps can be used as weighing dishes
- Tall form shape decreases bottle footprint
- External ground joint allows for sample transfer without seal interference
- Flat top permits stacking for increased desiccator capacity

Catalog No.	Capacity	Approx. Weight	Joint Size	O.D.	Height
<a href="#">LG-3820-100</a>	7 mL	9 g	14/10	15mm	50mm
<a href="#">LG-3820-102</a>	12 mL	13 g	14/10	15mm	80mm
<a href="#">LG-3820-104</a>	12 mL	18 g	24/12	25MM	40mm
<a href="#">LG-3820-106</a>	16 mL	21 g	24/12	25mm	50mm
<a href="#">LG-3820-108</a>	30 mL	30 g	29/12	30mm	60mm
<a href="#">LG-3820-110</a>	45 mL	52 g	40/12	40mm	50mm
<a href="#">LG-3820-112</a>	70 mL	67 g	40/12	40mm	80mm
<a href="#">LG-3820-114</a>	85 mL	78 g	50/12	50mm	50mm

Catalog No.	Capacity	Approx. Weight	Joint Size	O.D.	Height
<a href="#">LG-3861-100</a>	12 mL	20 g	29/12	25mm	40mm
<a href="#">LG-3861-102</a>	16 mL	25 g	29/12	25mm	50mm
<a href="#">LG-3861-104</a>	30 mL	32 g	34/12	30mm	60mm
<a href="#">LG-3861-106</a>	45 mL	55 g	45/12	40mm	50mm
<a href="#">LG-3861-108</a>	70 mL	72 g	45/12	40mm	80mm
<a href="#">LG-3861-110</a>	92 mL	83 g	45/12	40mm	100mm

## Low Form with Stopper

- Wide opening for easy addition and removal of samples
- Standard taper penny head stopper with closed bottom forms a secure seal

## Parr Bottle with Flat Top Cap

- Designed specifically for small samples
- External ground joint allows for sample transfer without seal interference
- Flat top permits stacking for increased desiccator capacity
