

## ProCulture® Spinner Flasks

Designed to save time and increase cell production, ProCulture® Spinner Flasks have internal baffles for enhanced agitation and a magnetically driven vortex impeller that provides gentle top-to-bottom stirring.

- Impeller eliminates dead spots and extends above the media surface to increase aeration
- Sidearm openings large enough for 50 mL pipettes
- Flask base has central bump to prevent material from accumulating at the bottom center
- Entire assembly made of FDA approved materials
- Flask is Type 1, Class A borosilicate glass construction
- All components are autoclavable
